

CONFLICT METAL STATEMENT

As one of the world's largest manufacturers of discrete semiconductors components, we have worked with our vendors to ensure that their supplies of metal do not come from Conflict Regions.

Our raw materials vendors have established specific supply chain steps and provide certifications that their metals are not sourced from Democratic Republic of the Congo Conflict Regions. These metals include:

- Gold (Au)
- Tantalum (Ta)
- Tungsten (W)
- Tin (Sn)
- Cobalt (Co)

Fagor Electrónica, S. Coop. conducts periodic reviews with our vendors to ensure that they are in compliance with this policy; and we obtain certifications from these vendors that their metal supplies do not come from these Conflict Regions.

Fagor Electrónica, S. Coop. metal raw materials are sourced from all over the world, including reputable global financial institutions. Based on our knowledge, we are confident that the materials used in our manufacturing do not contain metals (as listed above) that originate from the Democratic Republic of the Congo Conflict Regions.

In our vigilant environment, we work meticulously to make sure that the metals do not come from unknown sources. We continually monitor our supply chain to ensure that this policy is strictly adhered to.
